The following is an examiner's statement of reasons for allowance:

Claim 38, the Prior Art of Record does not teach nor suggest in the claimed combination a miniature relay comprising a conductive element arranged in said intermediate space, said conductive element being a detached part of movement freely along the intermediate space... wherein at least one of first second and third condenser plates induces a charge distribution in said conduction element that forces said conduction element to move along the intermediate space... wherein a closing of the electric circuit is not affected by a voltage of the conductive element.

Claim 46, the Prior Art of Record does not teach nor suggest in the claimed combination a miniature relay wherein said conductive element comprises a conductive element part which defines an axis, in the interior of which is housed said second contact point, and a flat part which protrudes from one side of said conductive element part and which extends in the direction of said axis, in which said flat part has a height, measured in the direction of said axis, which is less than a height of said cylindrical part measured in the direction of said axis.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
